

Stay

Jodeci

Don't talk, just listen, first of all
I have to be honest with you baby
I lied when I told you, I'd never want to see you again
Can you please stay just for tonight? And maybe we can do something
Like make love, watch the sunrise
Or listen to Jojo, K-Ci, sing us a verse
Slide closer baby that Devante baby
Oh you feel so sexy, so good Sorry I left you, left you cryin'
Since you've been gone I've been all alone
'Cause all of my tears you know they left me drownin'
Please baby I'm beggin' for you to stay at home Tonight let's start our love again
Tonight we can be more than just friends
Don't you know the sun, it is going down
Stay for a little while Baby won't you just stay?
Baby won't you just stay for a little while?
Baby won't you just stay for a little while?
Baby won't you just stay?
Baby won't you just stay? So here we are just me and you
Thinkin' of the things that we used to do babe
Tonight is yours, lady, yours and mine
Let's try again to put our trust on the line, yeah Tonight let's start our love again
Tonight we can be more than just friends
Don't you know the sun, it's going down
So baby won't you stay for a little while? Baby won't you just stay?
Baby won't you just stay for a little while?
Baby won't you just stay for a little while?
Baby won't you just stay? Forget about yesterday 'cause I want you so bad
Make love to me like you never had
My love is coming down
Baby won't you just stay for a little while?
Baby won't you just stay for a little while? I'm sorry I've done you so wrong, so wrong
And I really need you to come back home
I'm on my bended knees
I'm begging you please, no, no, no
Come on back, come on back, come on back, yeah
