

# Life's Highway

Jeannie Seely

Sun is up time's at hand  
There's a stir across the land  
And so begins another day  
On life's highwayOn city streets down country roads  
    Like a stream the people flow  
    There's bread to win and tolls to pay  
On life's highwayThere is hope with every turn  
    A bridge to build, a bridge to burn  
    Heres hoping you never go astray  
On life's highwayWe are young then we're old  
    Passing through then passing on  
    Like the roses bloom and fade  
On life's highwayStep by step, round and round  
    Never knowing where we're bound  
    From the cradle to the grave  
On life's highwayThere is hope with every turn  
    A bridge to build, a bridge to burn  
    Heres hoping you never go astray  
On life's highwaySun is up time's at hand  
    There's a stir across the land  
    And so begins another day  
    On life's highway
