

If I Had It All

Dave Matthews Band

Sometimes I can't move my feet it seems
As if I'm stuck in the ground somehow like a tree
As if I can't even breathe
And all my screams they come whispering out
As if nobody can even see me, like a ghost
Sometimes I can't see myself, sometimes
Then again if I were a king, if I had everything
If I had you and I could give you your dreams
If I were giant sized, on top of it all
Then tell me what in the world would I go on for, if I had it all
Sometimes I feel lost
As I pull you out like strings of memories
Wish I could weave them into you
And I could figure the whole damn puzzle out
Then again if I were a king, if I had everything
If I had you and I could hand you your dreams
If I were giant sized, on top of it all
Then tell me what in the world would I go on for, if I had it all
I could take anything, if I had no greed to pay
Only the poison that's tainting the clean
Well, then nothing, remembering times
Much younger than me now
When my breath was light
When the world raised me up kind
There mother comforts child
Every moment was waking up
But now I've grown tired
If I had it all
You know, I'd fuck it up
If I were a king, if I had everything
If I had you and I could give you your dreams
If I were giant sized, on top of it all
Then tell me what in the world would I go on for
If I were a king, if I had everything
Piece by piece if I had you
Then I could give you your dreams
If I were giant sized, on top of it all
Then tell me why in the world would I go on for
If I had it all
(If I, if I, if I had it all, if I)
If I had it all
(If I, if I, if I had it all, if I)
If I had it all
