

Take It Like A Man

Wakey!Wakey!

Said cut it out, I said you have got to cut it out
You are not welcome here and honestly I'd much rather do without
You and your cocaine attitude, I've got to cut you out
I cannot deal with you everyday, I've got to put you down But I hope you know it's a miracle, a miracle
I hope you know it's a miracle life
And I hope that you know this is a miracle, a miracle
And I hope you know this is a miracle So you should take it like a man
And stand silent through it all
Yeah you should take it like a man
Stand silent stand tall
As if you'd take it like a man
I would be on your side, I would be on your side
Be on your side, I would be on your side
Be on your side, I would be on your... I let you in like a bullet to my brain
I let you stay, I should have sent you off and on your way
I'm sorry now you don't understand my pain
But baby please don't make me tell you again That I hope you know it's a miracle, a miracle
I hope you know it's a miracle life
And I hope that you know this is a miracle, a miracle
And I hope you know this is a miracle You should take it like a man
And stand silent through it all
Yeah you should take it like a man
Stand silent stand tall
As if you'd take it like a man
And if you'd take it like a man
And if you'd, and if you'd...
I will be on your side, I would be on your side
I would be on your side, would be on your side
Be on your side, I would be on your side
Be on your side, I would be on your...
