Things I Would Do

B5

Yeah, B5
These are things I'd do you for you, baby, yeah
First time I stop I get myself a brand new whip and
Make sure it's sittin' on something, make sure it can be usin'
Hit the ATM, get my pockets swell
So, I can get her anything she wants
I got big plans for sure
Pleasing you, that's my goal
Ain't used to this kinda stuff
I'm doin' it just because 'cause I'm all in love
The things I would do for my girl
Give up all the ladies I've been seein' lately
You'll be my only baby, the things I would do for my girl
Take you to the hot spots, pull up in the soft top
Watch when all they eyes drop, the things I would do for my girl
I know them other playas weren't really there for you
So, come get with this, I'm gonna take good care of you
So, here we go, my girl, just let 'em know you're my girl
These are the things I would do for my
The things I would do for my girl
I'm gon' cop you the new Vics ain't nobody got yet
Make sure it fittin' nice and dice where I can see it
Take you out on the road, front row at all my shows
Make you my main girl in my video
I got big plans for sure
Pleasing you that's my goal
Ain't used to this kinda stuff
I'm doin' this just because, 'cause I'm all in love
The things I would do for my girl
Give up all the ladies I've been seein' lately
You'll be my only baby, the things I would do for my girl
Take you to the hot spots, pull up in the soft top
Watch when all they eyes drop, the things I would do for my girl
I know them other playas weren't really there for you
So, come get with this, I'm gonna take good care of you
So, here we go my girl, just let 'em know you're my girl
These are the things I would do for my
The things I would do for my girl
Pick you up in the middle of the night

Come through sayin' I'm wrong in the middle of a fight
Say I love you with a kiss on the forehead
More red roses, plus you gotta see where my home is
No love for the freaks tryna tempt me
South Beach breeze, 2 keys to the Bentley
Hold hands, talk about my dreams, tell me your plans
Anything you want, girl, put it on your man
Tell me all about the things you like
I wanna be the one to treat you right
I wanna be the one that come when you call
Drop funds at the mall, wanna be the one to freak you right
Everything I would do for you, every move, I'd move for you
Every song I sing, we can talk about a ring
But first I got things that I gotta prove to you
The things I would do for my girl
Give up all the ladies I've been seein' lately
You'll be my only baby, the things I would do for my girl
Take you to the hot spots, curl up in the soft top
Watch when all they eyes drop, the things I would do for my girl
I know them other playas weren't really there for you
So, come get with this, I'm gonna take good care of you
So, here we go my girl, just let 'em know you're my girl
These are the things I would do for my
The things I would do for my girl
Give up all the ladies I've been seein' lately
You'll be my only baby, the things I would do for my girl
Take you to the hot spots, curl up in the soft top
Watch when all they eyes drop, the things I would do for my girl
I know them other playas weren't really there for you
So, come get with this, I'm gonna take good care of you
