Remote Control (Me)

Electric Six

Remote control me right
Remote control me left
Remote control me right
Remote control meManipulate me here
Manipulate me down
Manipulate me up
Manipulate meOoh, you're sitting in your chair
But you ain't going nowhere
You got your finger on the button
But you ain't doing nothing
I'm begging you pleaseRemote control me right
Remote control me left
Remote control me right
Remote control meManipulate me here
Manipulate me down
Manipulate me up
Manipulate meI've waited years for thisYes!Remote, remote me
Remote, remote me
Remote, remote me
Remote, remote
Control me right!Remote control me right
Remote control me left
Remote control me right
Remote control meManipulate me here
Manipulate me down
Manipulate me up
Manipulate me
Ooh!
