

Remote Control (Me)

Electric Six

Remote control me right
Remote control me left
Remote control me right
Remote control me Manipulate me here
Manipulate me down
Manipulate me up
Manipulate me Ooh, you're sitting in your chair
But you ain't going nowhere
You got your finger on the button
But you ain't doing nothing
I'm begging you please Remote control me right
Remote control me left
Remote control me right
Remote control me Manipulate me here
Manipulate me down
Manipulate me up
Manipulate me I've waited years for this Yes! Remote, remote me
Remote, remote me
Remote, remote me
Remote, remote
Control me right! Remote control me right
Remote control me left
Remote control me right
Remote control me Manipulate me here
Manipulate me down
Manipulate me up
Manipulate me
Ooh!
