Everyone Else

London Grammar

Time is worth everything
Words against the tide
Grand failing of failings
And everything you call mine
Blessings on horizons, I swear
I saw people on the floor
Underwater and over there
Under oceans and in my headEveryone else knows why
Everyone else knows why
Look what you've done
Everyone else knows why
Everyone else knows why
Look what you've done
I'm flying away from fire
And I'm running from the known
I see the most beautiful colors here
In a terrifying stormEveryone else knows why
Everyone else knows why
Look what you've done
Everyone else knows why
Everyone else in another life
Now look what you've doneAnd you won't find me here
You won't find me there
You won't find me anywhere
Everyone else knows why
Everyone else knows why
Look what you've doneYeah!
It's enough you look at me that way
It's enough you ever know
Are you every single time you stay
On a word you won't leave you alone'Cause everyone else knows why
Everyone else saw why
Look what they've done
Everyone else saw why
Everyone else knows why
Look what you've done
Everyone else knows why
Everyone else knows why
Look what you've done

Everyone else knows why
Everyone else knows why
Look what you've done
