Maybe, This Time

Ok Go

Having spent your entire life
Exactly where you are tonight
In the valley between intent and deedYou must have mastered this
The fragile art of a good excuse
The little things that get you to believe
That get you to believeSo listen, I'm not trying to prove
Anything at all here
But don't you think that maybe
This time you were wrong?You've spent your entire life
Quick-tongued and always right
Hasn't being right, just let you down?
Right, just let you down?So listen, I'm not trying to say
Anything at all here
There isn't much left, anyway
That hasn't been saidBut don't you think that possibly
This time it's different?
Don't you think that maybe
This time you were wrong?So listen, I'm not trying to say
Anything at all here
There isn't much left, anyway
That hasn't been saidBut don't you think that possibly
This time it's different?
Don't you think that maybe
This time you were wrong?
