

She's So Happy To Be

Fool's Garden

(Hinkel / Freudenthaler)
is I feel hungry" and today
she says that all my hunger
she'll satisfy no more
She says:" As far as I can see
you're not the only one for me"
She's leaving sweet illusions
I'm all by myself
She's so happy to be
It's too much freedom for me
She has turned the key
and she gives it back to me
She says that all I have to do
is to watch out for someone new
She says life's wonderful
some consolation that is
She says 'chin up - your life goes on,
you'll see I'm not the only one
I won't be persuaded I don't see it that way

She's so happy to be
It's too much freedom for me
She has turned the key
and she gives it back to me
All that I can find
especially in my mind
It's some kind of perfect interference
All that I can see
my baby's glad to be
to all appearance
All that I can say
it's happening every day
She has turned the key
and she gives it back to me
I guess she doesn't like that lovesong,
I guess she doesn't like that way
She says she doesn't like that lovesong,
she says it and she walks away.
