

# Sour Girl

## Stone Temple Pilots

She turned away, what was she lookin' at?  
She was a sour girl the day that she met me  
Hey, what are you lookin' at?  
She was a happy girl the day that she left me  
She turned away, what was she lookin' at?  
She was a sour girl the day that she met me  
Hey, what are you lookin' at?  
She was a happy girl when she left me  
What would you do?  
What would you do if I followed you?  
What would you do, I follow?  
Don't turn away, what are you lookin' at?  
He was so happy on the day that he met her  
Say, what are you lookin' at?  
I was a superman but looks are deceiving  
The roller coaster ride's a lonely one  
I'd pay the ransom note to stop it from steaming  
Hey, what are you lookin' at?  
She was a teenage girl when she met me  
What would you do?  
What would you do if I followed you?  
What would you do, I follow?  
What would you do?  
What would you do if I followed you?  
What would you do, I follow?  
The girl got reasons  
They all got reasons  
What would you do?  
What would you do if I followed you?  
What would you do, I follow?  
What would you do?  
What would you do if I followed you?  
What would you do, I follow?  
Hey, what are you lookin' at?  
She was a happy girl the day that she left me  
The day that she left me  
The day that she left me  
She was a happy girl the day that she left me  
The day that she left me

The day that she left me  
She was a sour girl the day that she left me
