

# Fake

## Allele

In a dark room, with no conscious  
I hear a voice saying not again  
In a circle, of no reason  
Stepping on everyone you call your friends Always on empty it's unambiguous  
You're testing my patience as you avoid the rest  
So no I'm falling and I'm filling up  
With the emotion I'm choking up  
And your walls keep building up  
Your pain defines me, inside it's blinding And the pieces, on the inside  
You will break and you'll mold again  
What's the purpose for all this pain?  
Will you find yourself again? Always on empty it's unambiguous  
You're testing my patience as you avoid the rest  
So no I'm falling and I'm filling up  
With the emotion I'm choking up  
And your walls keep building up  
Your pain defines me, inside it's blinding You fake everything you do  
And throw it all away when you're through So no I'm falling and I'm filling up  
With the emotion I'm choking up  
And your walls keep building up  
Your pain defines me, inside it's blinding
