These Days

Vince Gill

Man, I've seen it all
I've had my back against the wall
Pain and misery, empty victories
Then you came alongOh, these days, I'll take these days
Over any other days I've ever known
Oh, your sweet ways make these days
Feel like homeMan, I've chased some crazy dreams
Reaching for that big brass ring
Bitter memories, I've put behind me
I found out it's the little thingsOh, these days, I'll take these days
Over any other days I've ever known
'Cause your sweet ways make these days
Feel like homeOh, these days, I'll take these days
Over any other days I've ever known
Oh, your sweet ways make these days
Feel like home'Cause your sweet ways make these days
Feel like home
