Heaven Was Full

Cold Cave

Is this the voice you've been calling?
Dead girl wridden in despair.
Is this the pace you've been crawling?
So look at him, without care.
Out of all the girls, I most do touches.
I was bored, so I went down with you.
Why'd you go and get me going?
Then drinked me like a cup of tea. I'll pick up drugs, they coarse through me.
Oh-oh. Of all the boys splashing out in the city.
Heaven was full so I went down with you.I will pity you 'til you're pretty.
What's a love without some struggle,
You're a slut, I stitch your knuckles up.
Out with all the corners. You've been cutting your teeth again.
No, I'm not scared. And I don't know why
The beginning ends aware of
The end, the end of all the corners.
You've been cutting your teeth again.
Oh I'm not scared, And I don't know why
The beginning ends aware of
The end, the end, the end. The doubt, again again again.
Began, the doubt, again again again.
