## Kilowatts & Vanek

Take one to the mountain  
Take one to the sea  
Take one to the belly of the beast  
And then you'll take one with me  
Shut it, shut it on  
Freezing in the fires  
When I utter howl your name  
Once you return from the belly of the beast  
You're never quite the same  
Shut it, shut it on  
Shut it, shut it on  
Fire on the mountain  
And it rages inside of your soul  
The fire inside the belly of the beast  
Well it thunderizes your soul  
Shut it, shut it on
