Time Heals

Jon Secada

I love you
It'll never be the same
Not this way again
With someone newBut someone new
Will just have to do
'Cause you never loved me at all
You told me yourselfWhy'd you stay with me, baby?
You'd let me take the chance
Left me making plansFor nobody, nobody
You said you were waiting
For your heart to fall in love
But you never loved me at all
I was just your friend that's allBut they say, time heals all wounds
I guess you made up your mind, baby
Time heals all wounds
And I hope the time can heal my heart
Heal my broken heart'Cause I loved you and I was true
You know I've been carrying a failure's cross
I did everything to win your heart
But you never loved me at all
I was just your friend that's allAnd they say, time heals all wounds
And I guess you made up your mind, baby
Time heals all wounds
And I hope the time can heal my heartAnd what of the nights
When you looked in my eyes
And you told me, you loved me?You made me feel in my heart
It was real not a spark
But a flame burning inside
Who can put out this fire inside?Time heals all wounds
And I guess you made up your mind, baby
Time heals all wounds
And I hope the time can healTime heals all wounds
Time heals all wounds
And I hope the time can heal my heart
Time heals all woundsTime heals all wounds
Time heals all wounds
Time heals
