

Big Brother

Girls Aloud

Uh oh, uh oh
Uh oh, uh oh
Uh oh, uh oh
Uh oh, uh oh I think about you baby every night
Oh, it feels so good, it's got to be right
And darling, I don't know your name
Oh, it's good, it's good, I like it that way Close up, rewind
You're in my mind
One touch, too far
Eyes meet so sweet in the dark Big brother's watchin' me and I don't really mind
I like him watchin' me, watch him watch life
There's nothin' he can't see and not much he won't find
He likes me watchin' him, watch me all night I like the way, you're messing with my head
Oh, it feels so good, I'm shakin' in my bed
And baby don't you think, I know your game
Oh, it's good, it's good, I know you feel the same Close up, rewind
You're in my mind
One touch too far
Eyes meet so sweet in the dark Big brother's watchin' me and I don't really mind
I like him watchin' me, watch him watch life
There's nothin' he can't see and not much he won't find
He likes me watchin' him, watch me all night If I'm confused and dazed and it's a crazy day
I wanna know, you care
And when I'm home at night and Mister Lonely bites
I wanna know, you're there Big brother's watchin' me and I don't really mind
I like him watchin', me, watch him watch life
There's nothin' he can see and not much he won't find
He likes me watchin' him, watch me all night
