

# Ever True

## Juice Newton

You were always so easy-living  
And so easy to love  
And who, who could have seen it coming?  
I dreamed it would happen to us  
Someone must lose, and I'm losing youBut you know I'll always be true  
My heart's always right here with you  
Though you have changed, I will remain  
Ever trueNow me, I was never an angel  
But, oh, how I have flown  
And love, it can be so hard to handle  
So I will stand here alone  
I must be strong, now that you've goneBut you know I'll always be true  
My heart's always right here with you  
Though you have changed, I will remain  
Ever trueLove has been kind from time to time  
This time, I know I can't win  
Now it begins, I'm crying againBut you know I'll always be true  
My heart's always right here with you  
And though you have changed, I will remain  
Ever trueThough you have changed, I still remain  
Ever true  
Though you have changed, I will remain  
Ever true
