Rest in Peace

Yellowcard

[Verse 1]
It was the best that you could be for me
I think we were lucky just to stay alive
Even when you had only fire to breathe
I know you were only trying to make it right[Pre-Chorus]
Change everything I've ever known
Try once again to let you go[Chorus]
If you could go back now, would you say it differently?
If there was no one there, would you open up for me?
If this was the last time, would we would ever speak?
Could we forgive somehow, could we let it rest in peace?[Verse 2]
Stories are lost somewhere behind your eyes
You are a dying breed, you stand alone
I couldn't get through no matter how I tried
You tore me apart but still I love you so[Pre-Chorus]
Change everything I've ever known
Try once again to let you go[Chorus]
If you could go back now, would you say it differently?
If there was no one there, would you open up for me?
If this was the last time, would we would ever speak?
Could we forgive somehow, could we let it rest in peace?[Bridge][Chorus]
If you could go back now, would you say it differently?
If there was no one there, would you open up for me?
If this was the last time, would we would ever speak?
Could we forgive somehow, could we let it rest in peace?
If you could go back now, would you say it differently?
If there was no one there, would you open up for me?
If this was the last time, would we would ever speak?
Could we forgive somehow, could we let it rest in peace?
