City Of God

Sodom

Silent calls of solitude
Waiting for decline
Delivered from their passion
To spill the blood tonightLaughing dead corruption
The truth is just a fake
Undying hate is buried
Into a nameless graveDon't be afraid
Don't run awayTheir past has been divided
Emperor's sacrifice
The dead will take the reign
Blessed by the gunsCity of GodCrawling deep into your soul
A life that fades away
Balanced on the edge of scorn
For whom you gonna prayTerror without pity
Insane and tearing minds
All wars could be forgotten
When life is so unkindDon't be afraid
Don't run awayTheir past has been divided
Emperor's sacrifice
The dead will take the reign
Blessed by the gunsCity of GodDon't be afraid
Don't run awayTheir past has been divided
Emperor's sacrificeCity of GodThe dead will take the reign
Blessed by the gunsCity of God
