Dreamers

Edith Frost

Advisory - the following lyrics contain explicit language:

Now that we've
Started to find our calling
In the half-light
We close our eyesLetting everything slide
Daylight's much too golden
Let me melt into your starry eyes
We're both lonely little dreamers
We could hold each other for tonightSo close your eyes...
Close your eyes...
Let me take it back to the topWe could pass
Beautiful moments entwined
In the half-light
We close our eyesTake it down again
I'll show you through the mirror
Let me melt into your starry eyes
We're just lonely little dreamers
We could hold each other for tonightSo close your eyes...
Close your eyes
Close your eyes
