Cream

Reema Major

Cream on me, you will always be
My deepest love, yeah, yeah
Cream on me, you will always be
My deepest love
I get an early start
I know we're far apart
My family, they need me
But daddy's never home
I call you on the phone
You say you're all alone
Surrender my feelings
And try to make it work
Cream on me, you will always be
My deepest love, yeah, yeah
Cream on me, you will always be
My deepest love
All this time, I draw the line
I'm gonna see it through
Till things get better
I won't cry and I can't deny
My days are coming
And you know I'm ready
Till things get better
Till things get better
It's getting hard to change
Can't get back yesterday
The pictures remind me
The story fills the page
I think of all the days
Limelight and self-decay
My suitcase gets weaker
My voice sure needs a break
Cream on me, you will always be
My deepest love, yeah, yeah
Cream on me, you will always be
My deepest love
Cream on me, you will always be
My deepest love
