Late Night

Syd Barrett

When I woke up today And you weren't there to play Then I wanted to be with you When you showed me your eyes Whispered love of the skies Then I wanted to stay with youInside me, I feel alone and unreal And the way you kiss will always be A very special thing to meWhen I lay still at night Seeing stars, high and light Then I wanted to be with you When the rooftops shone dark All alone saw a spark Spark of love just to stay with youInside me, I feel alone and unreal And the way you kiss will always be A very special thing to meIf I mention your name Turn around on a chain Then the sky opens up for you When we grew very tall When I saw you so small Then I wanted to stay with youInside me, I feel alone and unreal And the way you kiss will always be A very special thing to me
