

Remember Me (the Videos)

Hoobastank

I stand here face to face
With someone that I used to know
He used to look at me and laugh But now he claims
That he's known me for so very long
But I remember being no one I wanted to be just like you
So perfect, so untouchable
Now you want me to be with you
Someone who used to have it all Do you remember now?
You acted like you never noticed me
Forget it
Cause the gone has come around
You're not allowed to be a part of me Did you know me?
Or were you too preoccupied
With playing king in your new kingdom
And now the real world
Has stripped you of your royalty
And from your kingdom you're evicted I wanted to be just like you
So perfect, so untouchable
Now you want me to be with you
Someone who used to have it all Do you remember now?
You acted like you never noticed me
Forget it
Cause the gone has come around
You're not allowed to be a part of me Part of me [Repeat: x3] You're never going to be part of me [Repeat:
x6] Do you remember now?
You acted like you never noticed me
Forget it
Cause the gone has come around
You're not allowed to be a part of me Part of me [Repeat: x3]
