Just Like the Weather

Suzy Bogguss

The wind is blowing from a new direction
You're thinking 'bout going, I know
It's been a long season and hard on our affections
But that's no reason to let goYou change just like the weather
But the weather, you know, will always change
If you stay, it'll get better
Wherever you go, it's bound to rainSo put on your jacket and stand your ground
Love's gonna have its highs and lows
If we turn and face it, the wind will come around
Don't have to chase it when it blowsYou change just like the weather
But the weather, you know, will always change
If you stay, it'll get better
Wherever you go, it's bound to rainYou change just like the weather
But the weather, you know, will always change
If you stay, it'll get better
Wherever you go, it's bound to rainYou change just like the weather
