

# No More Lies

## Rocket Scientists

### Verse 1

There's a place in time to lend your love, its not a crime  
There is time for letting go  
I wanna be the only one to light the spark of the midnight sun  
Can we meet on higher ground.

### Chorus

Now there's time to breath, time for you and me  
No more lies, this time, this time  
we'll walk the road in peace, to eternity  
No more lies, this time, this time.

### Verse 2

On and on we run like a tiger finds his place in the sun  
To the edge of modern times  
(modern times)  
She went out on the west bound train,  
stood and stared in the poring rain  
Now shes back and we'll start again.

### Chorus

Now there's time to breath, time for you and me  
No more lies, this time, this time  
we'll walk the road in peace, on eternally  
No more lies, this time, this time.

### Bridge

No more lies, tonight we touched the knife  
will are love never die, no no no  
Now that your back, the sunshine is right through the rain.

### Verse 3

I wanna be the only one, to light the spark of the mid night sun  
Can we meet on higher ground.

### Chorus

Now there's time to breath, time for you and me  
No more lies, this time, this time  
We'll walk the road in peace, to eternity

No more lies, this time, this time.

Bridge

No more lies

(No lies this time)

We'll walk the road in peace, to eternity Oh oh

On and on and on
