This Bird's Gonna Fly

Los Lobos

And so we've come a long way
Too, too long baby, I've got to say
And even though we had some fun
I'm tellin' you honey, I've got to runWell it seems you had your time
Takin' everything from me you could find
But now the table's turned and this old heart you'll never burn
But this bird's got to fly, bird's got to fly
I'm tellin' you honey, this bird's got to fly, so long
Got to be on my wayYou always seemed so clever
With your little books that you read forever
Always a-keepin' me down, but now I'm gonna come back around
A-tears a-burnin' me, a-pain a-burnin' me, can't you see?And I'm tired of wasting precious time
To you my life ain't worth a single dime
But this bird's got to fly, bird's got to fly
I'm tellin' you honey, this bird's got to fly, so long
Got to be on my wayAnd so we've come a long way
Too, too long baby, I've got to say
I'm tired of wastin' precious time
'Cause to you my life ain't worth a single dimeSo this bird's got to fly, bird's got to fly
I'm tellin' you honey, this bird's got to fly, so long
Got to be on my way, so so long
Got to be on my way, ya, so long, baby
