

# Song For A Dying Planet

**Joe Walsh**

Is anyone out there?  
Does anybody listen or care anymore?  
We are living on a dying planet,  
We're killing everything that's alive,  
And anyone who tries to deny it  
Wears a tie  
And gets paid to lie  
So I wrote these songs for a dying planet,  
I'm sorry but I'm telling the truth,  
And for everybody trying to save it  
These songs are for you, too.  
Is anyone out there?
