

Wednesday Lover

Jagged Edge

Every now and then you may not know just when
You'll find a love that'll treat you right
'Cuz I was so glad to say that one just came my way
It was on a very special night Wednesday lover
(Wednesday lover, Wednesday lover for there's no other)
She's more than I ever would need
(She's more than I got, she's more than I ever would need)
There's no other
(There's no other, there's no other love, no other)
More than I know, she's the one for me
(Know she's the one, know she's the one for me, yeah) No more worthy day, a day I'll never suppress
The way she makes me feel inside
A tender love so sweet, she makes my life complete
I'll always want her by my side Wednesday lover
(Wednesday lover, Wednesday lover, there's no other)
She's more than I ever would need
(More than I got, more than I ever would need)
There's no other
(There's no other, there's no other love, no other)
More than I know, she's the one for me
(Know she's the one, know she's the one for me, yeah) Seems like all the other days takes me much too far away
But I'm longing for you, you, for you
Thursday, Friday, Saturday, I wish they all could run away
What am I to do? I wanna get back to you With all my heart, yes, a day I'll never suppress
The way she makes me feel inside
Her tender love, so sweet, she makes my life complete
I always want her by my side Wednesday lover
(Wednesday lover, Wednesday lover for there's no other)
She's more than I ever would need
(More than I got, more than I ever would need)
There's no other
(There's no other, there's no other love, no other)
More than I know, she's the one for me
(Know she's the one, know she's the one for me, yeah) Wednesday lover
(Wednesday lover, Wednesday lover for there's no other)
She's more than I ever would need
(She's more than I got, more than I ever would need)
There's no other
(There's no other, there's no other love, no other)

More than I know, she's the one for me
(Know she's the one, know she's the one for me, yeah) More than I got, more than I would ever would need
Know she's the one, know she's the one for me yeah
