Above

Finger Eleven

Inside I'm gone, you knew that all, all along Without the distance you never get away Plastic bag image, it's over now, it's over now The color fading is all the way to grayWe are strong but we're dumb We look above, we look above We are strong but we're dumb We look above, we look aboveTrusting, the instinct, it's not about what you think The one reaction is only to obey And now I'm staring, all around, I'm not far down Judge the distance from the ground and prayWe are strong but we're dumb We look above, we look above We are strong but we're dumb We look above, we look aboveWe are strong but we're dumb We look above, we look above We are strong but we're dumb We look above, we look aboveWe are strong but we're dumb We look above, we look above We are strong but we're dumb We look above, we look aboveWe look above, yeah yeah yeah We look above, we look above, yeah yeah yeah
