

Still In Love With You

Brooks & Dunn

My taxi-cab is waiting
Wish I could hold you one last time
After all we had together
Theres gotta be a better way of telling you goodbye
If I had a horse, Id ride off in the sunset
If I had wings, Id fly off in the sky so blue
If I had the time, Id spend my whole life dreaming
And Id wake up, still in love with you
Be in baton rouge by morning
Hope youre missing me by then
Id like to be the kind of memory
That makes you want to take me back in your arms again
If I had a horse, Id ride off in the sunset
If I had wings, Id fly off in the sky, so blue
If I had the time, Id spend my whole life dreaming
And Id wake up, still in love with you
Some night when you get lonely
Will you still remember me?
If I had a horse, Id ride off in the sunset
If I had wings, Id fly off in the sky, so blue
If I had the time, Id spend my whole life dreaming
And Id wake up, still in love with you
And Id wake up, still in love with you
