Try All You Want

Electronic

It's a perfect situation
I'm trying hard to understand
You make my life a celebration
And then you never let me downIf you want to go
I just can't say no
If you want to go
I just can't say noYou've got me hanging on a string
I find it hard to turn the other cheek
You know it doesn't mean a thing
I could be through with you within a weekIt's a perfect situation
I'm trying hard to understand
Is it still infatuation
Between a woman and a man?There never was a minute on my own
I never felt I needed anyone
It's the perfect situation
I can't hope to understandIf you want to go
I just can't say no
If you want to go
I just can't say noIf you want to go
I just can't say no
If you want to go
I just can't say noIf you want to go
I just can't say no
If you want to go
I just can't say noIf you want to go
I just can't say no
