One More Night

Sandra

One more night, one more night with you
Close your eyes I'll give you my love
One more night, one more night with you
Please hold me once again 'cause I love youHere I stand and I can't even cry
My heart is breakin' up inside
You say goodbye, you found somebody new
Wherever you go I'll be with youOne more night, one more night with you
Hear me now I can't let you go
One more night, I'll open my heart to you
Please hold me once again 'cause I love youBefore you leave, just take me in your arms
And let me feel you once again
Can't help myself, I still depend on you
Whatever you do, I'll be with you
