

Rock On

Gary Glitter

There's a good vibration
Spreading through the nation
Get up on your feet, rock on! Like a ball of fire, keeps on growing higher
Chase your blues away, rock on!
On and on and on and on, rock on! Rock on! Like a magic potion
It's just music motion
Feel it in your soul, rock on! There's a new age coming
Things are really humming
All across the land, rock on!
On and on and on and on, rock on! Rock on! And now I'll tell you something
We really started something strong
And as long it keeps going
We know there's nothing going wrong, rock on! On and on and on and on, rock on! Rock on! There's a good
vibration
Spreading through the nation
Get up on your feet, rock on! Like a ball of fire, keeps on growing higher
Chase your blues away Rock on! Rock, rock on
Rock on! Rock, rock on
Rock on! Rock, rock on! Like a magic potion
It's just music motion
Feel it in your soul, rock on! There's a new age coming
Things are really humming
All across the land, rock on! On and on and on and on, rock on! Rock on!
On and on and on and on, rock on! Rock on!
On and on and on and on, rock on! Rock on!
On and on and on and on, rock on!
