

Looking for a Place to Shine (feat. Clare Bowen)

Nashville Cast

I jumped in, looking to make a wave,
I was working what the good Lord gave,
Baby, here I go, you'll be praying for land
While I'm rocking the boat!
I'm moving, come on and join in my parade,
I've been waiting for the rhythm to change,
Now the time has come,
So turn on the flames and turn up the sun! Like fireworks shooting into the sky,
I wanna color the dark with the light.
Like a diamond, sitting on a ring,
I'm just a girl that wants to be seen,
Every time I'm looking for a place to shine! So take ten if I'm a little too much to take,
You're gonna let a good time go to waste,
So baby, get in line,
Cause it's better to play than sit on the side
I'm thinking, of busting through the door,
Leaving everybody begging for more,
And you know it's true,
When you're a girl like me, you got nothing to lose! Like fireworks shooting into the sky,
I wanna color the dark with the light.
Like a diamond, sitting on a ring,
Well I'm just a girl that wants to be seen,
Every time I'm looking for a place to shine!
Looking for a place to shine!
