

Butterflies (Acoustic Version)

Kolohe Kai

There's something in your eyes,
It holds a big surprise,
It made me realize how much I adore you.
I hold you in my arms,
I'll keep you out of harm,
I'll always have the charm and love I have for you. You're my crush,
Can't you see the way I blush,
but I don't want to rush things with you my love,
You're all I think of,
Truly sent from above. Girl I get butterflies when I look into your eyes,
Girl, I get butterflies, yea I,
I get so weak when I hear you speak,
Girl, I get so weak,
I get butterflies. Oh I love the way you smile,
It's got me going wild,
I never imagined having this feeling.
From the way you flip your hair,
To the glances that you share,
And the loving way you care,
Has my heart hit the ceiling. You're my crush
Can't you see the way I blush
But I don't want to rush things too quick with you,
You're my baby boo,
Oh darling I love you. Girl I get butterflies when I look into your eyes,
Girl, I get butterflies, yea I,
I get so weak when I hear you speak,
Girl, I get so weak,
I get butterflies. I get butterflies.
Butterflies, butterflies.
