

Prayer

Gorgoroth

I bind us here today, we made here a vengeance
tears of the patriarch(s) and the blindness of prophets
silence of impostors, the Atheism of confessors
this filth of holy virgins, the epiphany of the righteous man
I bind myself today to the powers of Hell
the darkness of the sun, and the darkness of the moon
the curingness of fire
the blackness of lightning
the slowness of wind
the subtleness of sea, (the) ability of earth
the looseness of rocks
Satan deliver it again!
Unto poison
Unto burden
Unto clouded
Unto dead one
The army issues important purposement
I bind myself today
Slayer of the universe
