

Ghost

Parachute

Go to bed, sleepyhead
The boys have all gone away
You must be brave, ride the wave
See the world in a day
I'm sorry, she's a lady
But a ghost from the past
Haven't seen my honey lately
Said our love wouldn't last
Soldier blue, we've come for you
Half a crown for the chest
The little bird, she fell to earth
Perhaps us all for the best
I'm sorry, she's a lady
But a ghost from the past
Haven't seen my sugar lately
Said our love wouldn't last
Ooh, woah, but a ghost from the past
Ooh, woah, hero
Ooh, woah, hero
Go to bed, you sleepyhead
The boys have all gone away
You must be brave, ride the wave
Save the World in a day
Now I'm sorry, she's a lady
But a ghost from the past
Where's my honey been lately?
Said our love wouldn't last
Ooh, woah, hero
Ooh, woah, hero
You can hear the birds
Can you feel the air?
Can you see the light?
Are you everywhere?
Can you really fly?
Can you feel the air?
Can you see the light?
You can be at one
You can hear the birds
Can you feel the air?

Can you see the light?
Are you everywhere?
Can you really fly?
Can you feel the air?
Can you see the light?
You can be at one
You can hear the birds
Can you feel the air?
Can you see the light?
Are you everywhere?
Can you really fly?
Can you feel the air?
Can you see the light?
You can be at one
Can you really fly?
Can you really fly?
Can you really fly?
Can you see the light?
A ghost from the past
Said our love wouldn't last
A ghost from the past
Said our love wouldn't last
A ghost from the past
Said our love wouldn't last
A ghost from the past
Said our love wouldn't last
A ghost from the past
Said our love wouldn't last
A ghost from the past
Said our love wouldn't last
