

I Like You

Culture Beat

Get funky Mr. DJ
Do that thing from a guy called Jay Jay
Say you'll play that song
There's a girl out there and she turns me on
I feel for her
Really feel for her
And if she hears that one I hope it affects her
In her heart
To her soul
Hey my DJ let it roll I like you
No matter what you do
I like you
Hope you feel the same way too
I like you
And everything you do
I like you
And that is why I'm true to you Bring it straight to that state
Of being her man and she's my mate
Look Mr. DJ her cherry lips
Superfly
She's a real trip
Goody good you're under my hood
And the way it looks
It's the way it should be to me and it's love I see
Could be yours till eternity
Girl I like you
And I attest you a funky opportunity
Let me kiss you right on the mouth and not on the cheek
Love rate is at the highest peak
Pretty fly you passed me by
But do it now i'm gonna die
I'll be the best boy that you ever had
So don't turn away
I'll give you love instead
