

Lex Titia

ShadowIcon

People of Rome behold,
There is something important, that has to be told:
Lex Titia the new law of Rome.
Rise of the trinity - a new chapter has begun. Three's company
Prepared to rule the world
Three's company
They conquer with the sword Rotten within,
Just layers of sin!
Our republic is no more!
Dictators side by side, governing our days,
But they don't care about us.
Forced control of our land, our homes, our lives,
What will we become?! Whatever will happen, whatever will come
Nothing else matters, just glory of Rome.
Three's company - prepared to rule the world
Three's company - they conquered with the sword
Whatever will happen, whatever will come
Nothing else matters, just glory of Rome.
