# Better Off Gone

## Joe Diffie

The Day I left I told myself she's wrong
I'am better of gone....better of gone
I headed my old truck, in to the dawn
I'am better of gone...better of gone

If I'am better of gone
then why am I alone in the dark
If I made the right move
Then why am I so blue
and why can't I convince my heart
When my mind says better leave her alone
You're better of gone

I wonder should I call her on the phone..naw
I'am better of gone....better of gone
surely I can make it on my own
I'am better of gone....better of gone

If I'am better of gone
then why am I alone in the dark
If I made the right move
Then why am I so blue
and why can't I convince my heart
When my mind says better leave her alone
You're better of gone

If I made the right move
Then why am I so blue
and why can't I convince my heart
When my mind says better leave her alone
You're better of gone...better og gone
