Snoozer

Gus Gus

Let me off your psychic cloud
'Cause everytime I go around
I sink deeper into your unconscious mind
And your warm heart muscleLet me off your mental cloud
'Cause everytime I go around
I keep losing sense of what goes on behind
In subconscious real lifeI am a real life snoozer
I am a real life snoozerLet me off your pensive cloud
'Cause everytime I go around
I keep drifting along where my mind is inside
I keep drifting along where my mind is insideI am a real life snoozer
I am a real life snoozer
I am a real life snoozer
I am a real life snoozerI am a real life snoozer
I am a real life snoozer
I am a real life snoozer
I am a real life snoozer
