

# Get Into It

## Phantom Planet

Yeah, 21st century motherfuckers Love's a beautiful thing

But it's got nothing to do with me

I would put up a fight

If that bug starts to bite Well, Cupid, you little fuck

You shot an arrow and I got stuck

What good is love if I just Get in, get out

Get into it

Fall out, fall in

Fall out of it Get in, get out

Get into it

Fall out, fall in

Fall out of it

I've got no business with Love's a beautiful thing

But something's puzzling me

Do I give all I can give

Because Adam gave up his rib? Well, Cupid, you little shit

You shot an arrow and I got hit

Well, what good is love if I just Get in, get out

Get into it

Fall out, fall in

Fall out of it Get in, get out

Get into it

Fall out, fall in

Fall out of it

I've got no business with love Cupid, you little shit

You shot an arrow and I got hit

Well, what good is love if I just Get in, get out

Get into it

Fall out, fall in

Fall out of it Get in, get out

Get into it

Fall out, fall in

Fall out of it

I've got no business with love I've got no business with love

I've got no business with love

I've got no business with love

I've got no business with love
