Free at last
Finally tasting happiness
Five years of hell for nothing
Trapped inside the minds of failuresA wise man once said
That which does not kill us makes us stronger
Thought we were dead
So are we now invincible?Determination, perseverance, resolution, resurrection
Determination, perseverance, resolution, resurrectionFinal straw
Underlying ignorance
Consumed by greed and hate (And hate)
Kept under the feet of tyrantsReality kicked in
Raced against time just to start all over
Treated like shit
Pushed aside and expendableDetermination, perseverance, resolution, resurrection
Determination, perseverance, resolution, resurrectionWe have become so god damn powerful
We have become so god damn powerful
We have become so god damn powerful
We have become so god damn powerful
We have become so god damn powerful
We have become so god damn powerfulAll the beatings you gave us, we will use them against you
All the beatings you gave us, we will use them against you (Against you)
Determination, perseverance, resolution, resurrection
Determination, perseverance, resolution, resurrectionFree at last
Finally tasting happiness
The resurrection, resurrection, resurrection (resurrection)
