

Overt Enemy

Slayer

I breach your life
Indoctrinate
Police your thoughts
Ask why I hate I lose control
When I see your face
Abusing power
I infiltrate Continue lies
Then masturbate
I walk the line
I'll do no time I hate your church
I'll burn your state
A bleeding heart
A seal of fate There is no crime
Within my mind I'll sell your life and preach your death
A wicked plan born of contempt
Bleeding my ideology through pain Audacious plans
I calculate
A new world view
I'll re-instate Don't cross my path
Or I'll see you burn
You'll meet your end
Find death alone No grave to mark
The seeds you've sown
You've pushed too far
My secrets I defend I'll sell your life and preach your death
A wicked plan born of contempt
Bleeding my ideology through pain Demonize what is feared profane architect
Skull and bones through the mind
Barbaric thoughts of old
Celebrate all unknown At last the head await
The die is cast for the meek
Inherit endless dead time
Smell the victim are near Consume the catalyst
Hunting masses for game
Implanting septic thoughts
Reaping terror through words while Armed behind your back
Pseudo leaders betray
Enslaving all of mankind
Cast out the Demi God Dethrone the demagogue

Cast out the church God
I command your life
And I don't careLet bullets rain
From everywhere
No suicide
Will save you from yourself
