Numbers

Raine Maida

Building bridges over waterways
These fractions and geometry
There's nothing we can do but elevate
We elevate
All the science and technology
All these numbers coming down on me
They don't mean a thing to me
Do they mean to you?Undefined
Haunted minds
Love takes time
I don't know what I would do without you, without youFor forty days and forty nights remain
The sad I had would keep the walls at bay
As soon as life exists there's nothing safe, nothing safe
Hold them down to our philosophy
Shed these waters oh so carefully
Take our time 'cause we got mouths to feed, mouths to feedUndefined
Haunted minds
Love takes time
I don't know what I would do without you, without youAll the science and technology
All these numbers coming down on me
They don't mean a thing to me
Do they mean to you?
Do they mean to you?
