Recovery

Buckcherry

Recovery, recovery, recoveryPeople say I need some recovery
They can't seem to handle my energy
If you hate me, stand up in front of me
You can meet my GodWhen the sun shines down

I will always be there

When you wear the crown

They will come to defeat youRecovery, recovery, recoveryStick it to me, fear and ferocity

I have uncuffed your animosity

Ain't no doubt there's something inside of me

That can't be left aloneWhen the sun shines down

I will always be there

When you wear the crown

They will come to defeat youIf you turn back now

They will make you a believer

You'll be a face in the crowd

But you'll never be a leader

Oh, yeahOh, yeah, oh yeah

Oh, yeah, oh yeahPeople say I need some recovery

They can't seem to handle my energy

If you hate me, stand up in front of me

You can meet my god, yeahWhen the sun shines down

I will always be there

When you wear the crown

They will come to defeat youIf you turn back now

They will make you a believer

You'll be a face in the crowd

But you'll never be a leaderRecovery, recovery, recovery

Recovery, recovery
