Change Me

Berner

I'm a rock of solid stone
And this place I'm in is not my home
I feel the wind rushing by
It sees the world, why can't I?
I'm so good at standing still
If you don't move me nothin' will
Change me tonight
Don't be afraid if you have to break me
Change me now into anything you need
Baby I want to believe your love can save me
Change me
I've been lost for so long
What will I had is almost gone
Yeah, there's so much more I could be
So work your hands into me
I know exactly who I am
I'll just stay here unless you can
Change me tonight
Don't be afraid if you have to break me
Change me now into anything you need
Baby I want to believe your love can save me
Change me
And baby just make me believe
Your love can save me
Oh, change me tonight
Don't be afraid if you have to break me
Change me now into anything you need
Baby just make me believe your love can save me
Change me
I'm a rock of solid stone
This place I'm in is not my home
