This Is My World

B Charme

Honey today I do believe
That I have to open your eyes
And now I'm looking for a light
For a light to let me shineI need to fly across the mountain
And then I need to touch the clouds
I want to get the rain in my hands
and feel the sun on meThis is my world
This is my time
And I belong to what I see
A dreamland to beSay that you want to stay tonight
Let me take you deeper inside
And now I'm gonna find a way
Got to leave me to the sky
