Take A Step Back

Every Avenue

Take a step back, take a step back
It's all big talk until something happens
The words mean nothing 'til they're followed by actions
Keep your mouth moving but your body still
You'll never hit the target if you're shooting empty shells
Slow it down now
And take a step back, take a step back
Hold on tighter
We're gonna make this count
It's a shot in the dark, against all odds
They said we'd never make it this far
Well, look at us now
We've found our way
Life is what you make of it, so maybe your own faults
Wonder what we could bend
Looking back on all of this, I wanna know I made the best
Saving my rest for the grave
Pulling out of pockets to show what we got
Asleep at the wheel, dreaming and driving
Rather hit rock bottom than be stuck second guessing
They have the answers but they don't know the questions
Come on, let's make something happen
We'll make mistakes and not learn our lessons
Slow it down now
And take a step back, take a step back
Hold on tighter
We're gonna make this count
It's a shot in the dark, against all odds
They said we'd never make it this far
Well, look at us now
We've found our way
Life is what you make of it, so maybe your own faults
Wonder what we could bend
Looking back on all of this, I wanna know I made the best
Saving my rest for the grave
Hey, hey, slow it down now
Hey, hey, slow it down now
We've got this under control
Hey, hey, slow it down now

Hey, hey, slow it down now
We've got this under control
Slow it down now
And take a step back, take a step back
Hold on tighter
We're gonna make this count
It's a shot in the dark, against all odds
They said we'd never make it this far
Well, look at us now
We've found our way
Life is what you make of it, so maybe your own faults
Wonder what we could bend
Looking back on all of this, I wanna know I made the best
Saving my rest for the grave
